

# Commercial Systems and Technology Integrations

We offer a wide range of intelligent electronic security solutions backed by our 24/7 professional monitoring centre.

## Our solutions and services include:

---

### CCTV Surveillance Systems

- Video Analytics
- Mobile Surveillance Units (MSUs)
- Live Event Verification
- Cloud Hosting 24/7

---

### Electronic Access Control

- Remote and/or Local Systems Management

---

### Intrusion Detection Systems

---

### ULC Monitoring

## Your Complete Security Solution

GardaWorld combines physical security services such as guards, mobile patrol and alarm response, with the latest in security systems technology.

Take advantage of features like video analytics to monitor customer count, analyze store traffic patterns, and track customer wait time, providing you with increased insight and control over your operations.

We also offer loss prevention services, which help managers of retail businesses identify both internal and external theft and fraud risks through a comprehensive analysis.

# Employee and Property Protection

We focus on keeping your people,  
buildings and assets safe.

## Our solutions and services include:

---

### Fire & Life Safety Systems

- ULC Monitoring
- Temperature Sensors
- Carbon Monoxide Detectors

---

### Flood Protection

- Flood Sensors
- Automatic Water Shut Off Devices

---

### Staff Duress Protection
