

Security, medical, response logistics, canine – anytime, anywhere.

Our Mission

To deliver best in class security, medical, logistics, and associated critical mission support services to U.S. federal, state, and local government customers, as well as commercial clients, both domestically and abroad. **Anytime. Anywhere.**

About Gardaworld Federal Services

In these extremely challenging times, when the velocity of crises and emergencies are accelerating at an unprecedented pace, you can count on GardaWorld Federal Services (GWFS) to respond rapidly and effectively to meet your critical mission support needs.

We are part of the GardaWorld family of companies and are a U.S. business based in Washington, DC, that is singularly focused on delivering critical security, medical, logistics and associated support services to our discerning clients, both domestically and abroad.

Department of State, Department of Defense, Department of Homeland Security, Department of Health and Human Services, the Intelligence Community, as well as the emergency operations management offices at the state, city, and local level.

GWFS can respond rapidly and effectively to any critical mission support requirement.

We are a partner of choice to the U.S.

to any critical mission support requirement. We currently operate across four continents providing services in complex and challenging environments and have responded to all major U.S. natural disasters, declared emergencies, and military conflicts since 2002.

to supporting your next mission.

We look forward

Medical

As the healthcare staffing crisis continues across the United States and demand remains high, GWFS has been able to source and deploy thousands of medical professionals to hospitals, government facilities, intake and screening sites, and testing and vaccination sites across the U.S. GWFS is uniquely experienced in providing rapid response for both turnkey medical services and medical staffing solutions. We provide all elements of medical services to include temporary medical clinics, medical equipment, supplies, clinicians, non-clinicians, and medical administrators to our customers

with your mission.

From hospital staff augmentation to full

and customize our medical solution to align

turnkey remote medical clinics, to pop-up COVID-19 vaccination and testing sites, GWFS can provide the talent support you need. GardaWorld Federal Services maintains a pool of thousands of medical personnel who are available for new assignments on short notice. We are ready to support your medical staffing requirements, anywhere, anytime.

Whether it's a natural disaster, manmade crisis, or critical special event, GWFS has the experience, capability, and assets to provide

Response Logistics

logistical solutions to any of your urgent response requirements. From responding to extreme weather disasters to music events, special humanitarian missions to athletic competitions, we bring the full power of GardaWorld to help our customers respond to these complicated issues.

event support. Our comprehensive logistics capabilities focus on remote base camps and facilities management. We have more than 450 experienced first responders and highly skilled operations and logistics professionals are trained in the Incident Command System (ICS).

to government and commercial customers,

operations.

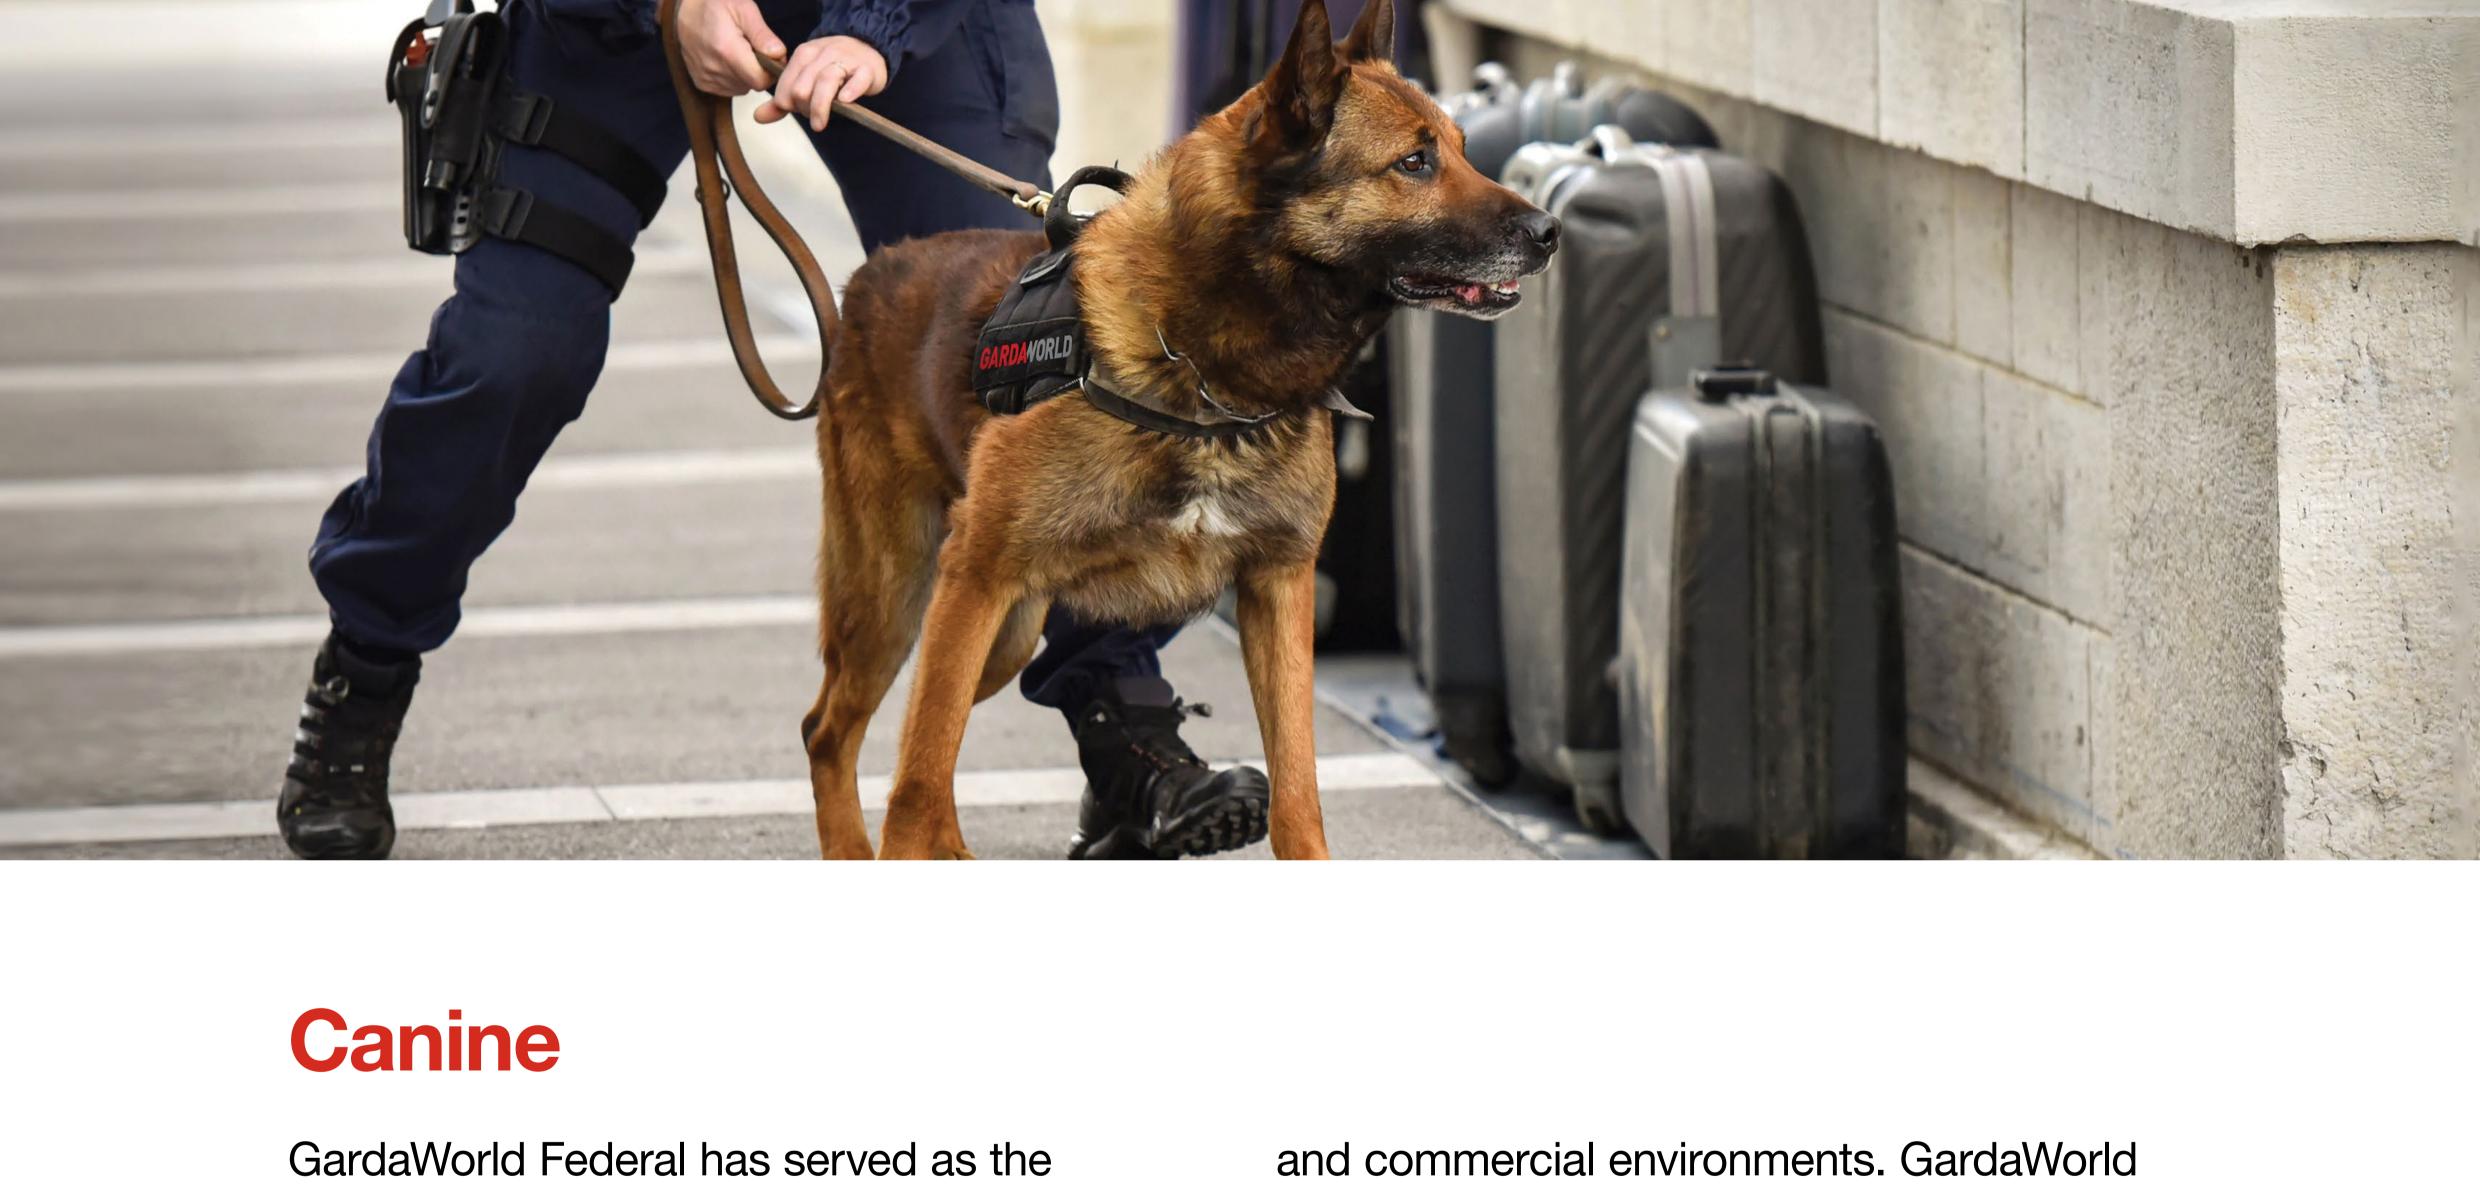

Offering both mobile and static security, GWFS

provides coverage for U.S. embassies and

personnel across the globe with our highly

trained and licensed security professionals

ensuring the integrity and continuity of your

Canine

GardaWorld Federal has served as the premier provider of explosive detection canine teams in the industry for over a decade, supporting high-consequence U.S. diplomatic and defense efforts overseas and elite U.S. Military Special Operations groups. Our proven success abroad continues to fuel our canine program's growth domestically in both air cargo and commercial sectors. Our success is powered by our state-of-theart, ATF-licensed canine training facility in Summit Point, WV, delivering scientifically based training to prepare teams for real world deployments in government, aviation,

and commercial environments. GardaWorld Federal is a TSA-approved 3PK9 provider with a robust compliance program built by subject matter experts and maintains 3PK9 DHS Safety Act Designation. Our commercial teams are deployed to professional sports venues, hospitals and healthcare facilities, property management offices, and high-profile events. GardaWorld Federal strives to provide versatile, layered security solutions by offering a suite of canine detection capabilities including explosives, narcotics, lithium battery, and patrol and apprehension.
