

GARDAWORLD

**Dependable
security anytime,
anywhere.**

At GardaWorld, we're trained to take care of every detail, so you can focus on the bigger picture.

Security and Guarding

As an established elite security company, we are well positioned to deliver the necessary support for our clients' operations.

SECURITY GUARDS

GardaWorld security guards are selected through a strict hiring process that includes extensive background checks, as well as rigorous training by certified instructors. They help maintain a safe environment and reassure both your employees and the public. Our security solutions can integrate static, mobile and technological elements.

Our services include

Emergency response and first aid

Access control of entrances and exits

Scheduled perimeter patrols

Security risk assessments

Fire safety (prevention and protection)

Security systems monitoring
(CCTV, alarm panel and key control)

Providing recommendations for security
equipment and personnel

Executive protection

Police support services

MOBILE PATROL SECURITY

Mobile patrol units are an important part of a successful security system. Not only does their presence serve as a deterrent, but the patrollers' rapid response times ensure better protection of your facilities and assets against criminal acts.

Our services include

Alarm response

Vacation watch mobile patrols

Prevention patrolling

CONCIERGE

Rely on our experts to keep your residents, staff and visitors safe. GardaWorld provides specialized and best-in-class concierge and security services for condominiums, multi-dwelling complexes, apartment buildings and commercial properties.

Our services include

Front-desk concierge services

Reliable security-trained professionals

Condominium security assessments

Industry-leading technology

Planning and Consulting

Understanding security issues requires special expertise. That's why GardaWorld provides consulting services for investigations, shadowing, security audits, conflict resolution and workplace harassment cases.

CONSULTING AND INVESTIGATIONS

Our consulting and investigation experts offer a wide range of reliable and professional solutions. We help government and public services, insurers, lawyers, companies, financial institutions, and many others make informed decisions in difficult or contentious situations.

Our services include

Risk management and consulting

Intelligence and tracking

Executive protection

Investigation and surveillance

Cyber investigation

Specialized services

LOSS PREVENTION

When it comes to your business, protecting your inventory from loss is essential. GardaWorld's experts are at your service, specifically trained to prevent theft and fraud, detect suspicious behavior and protect your employees and customers while limiting the associated financial impacts.

Our services include

Loss prevention audits

Preventing shrinkage

Compliance visits

Pre-employment checks

Employee training

An aerial photograph of a port or industrial area, showing numerous shipping containers stacked in rows, several forklifts, and a large crane. A white, concentric, semi-circular security overlay, resembling a radar or sensor field, is centered over the area, with lines radiating outwards. The text 'Technology and Equipment' is overlaid in large white font.

Technology and Equipment

We offer a broad range of innovative security products to help improve your overall security.

ALARM SYSTEMS AND MONITORING

GardaWorld offers a wide range of intelligent electronic security systems for homes and businesses, backed by our 24/7 ULC-certified alarm monitoring centre. We also offer wholesale alarm monitoring, dealer and client acquisition programs.

Our services include

24/7 security systems monitoring

Intrusion detection, access control, fire alarm and camera systems

Flood sensors and automatic water shut off devices

Mobile Surveillance Units (MSUs)

SMART PARKING SOLUTIONS

Our complete solutions allow you to automate parking functions and ensure the management and security of your open and closed parking areas at all times. Our technology includes parking meters, entry and exit terminals, gates, and more, backed by our 24/7/365 operations management and parking control centre.

Our services include

Open parking solutions

Gated parking solutions

Operations management

Control centre

Global on-the-ground presence

Our best-in-class teams are working every day to transform our global footprint and local insights into superior protection and high-touch service at every site domestically and around the world.

We are recognized as the security organization that delivers above and beyond international standards. We are committed to keeping your employees safe and your company's reputation intact.

We work in

Airports
