HYBRID SECURITY SOLUTIONS

**A FORCE MULTIPLIER
FOR TODAY'S WORLD**

“

Hybrid Security is one of the most efficient and effective security solutions available to you, your people and your business.

”

INTRODUCTION

As companies face increasingly unpredictable security threats, innovative solutions are needed to protect today's businesses.

That's why we've developed Hybrid Security as part of GardaWorld Canada's complete security solution, leveraging advanced AI technology.

Hybrid Security augments the industry-leading capabilities of our manned guards with amplified power and efficiency to protect your business like never before.

WHAT IS HYBRID SECURITY?

As a powerful part of GardaWorld Canada's complete security solution, Hybrid Security acts as a force multiplier, providing next-level protection, more coverage, faster response times—and the ultimate in cost-effective efficiency.

Harnessing the unique power of artificial intelligence through GardaWorld Security Systems' innovative Mobile Surveillance

Units (MSUs), Hybrid Security provides a more efficient security solution, ultimately providing guards with the tools they need to excel.

Hybrid Security combines advanced technology features with human expertise to provide unprecedented protection, tailored to your business needs.

WHY HYBRID SECURITY?

The world has changed, and with it, so have the security needs of today’s businesses.

Now more than ever, next-level solutions are needed to help meet the ever-evolving security threats faced by industry sectors like Distribution & Logistics, Construction, Oil & Gas, Manufacturing and so much more.

In line with our continued commitment to support our clients through innovation and industry-leading expertise, Hybrid Security was developed as part of GardaWorld Canada's complete security solution, in response to a growing market need where the traditional model is no longer efficient. By providing guards with the tools they need to excel, we’re empowering them to meet today’s complex security threats like never before.

Best of all, clients needing to reduce their budgets due to current economic constraints can now do so without compromising their security posture: with Hybrid Security, you’re getting more value at every turn.

THAT MEANS:

- > MORE POWER

By applying the latest technology to the heart of your security infrastructure, Hybrid Security positions manned guards to overcome all limits, ultimately responding more quickly and effectively than ever before.
- > MORE COVERAGE

From vast spaces to dark corners, Hybrid Security is optimized to protect all areas of your property with technologically advanced precision, for full perimeter coverage that leaves nothing to chance.
- > MORE HUMAN

Hybrid Security delivers the optimal conditions to maximize the talents of our highly-skilled guards. With a ubiquitous presence, our guards don’t miss a beat—and can focus on more of what they are trained to do best.
- > MORE VALUE

Through the careful and strategic alignment of people and processes, we’ve developed a cost-effective solution that provides more of what you need—and less of what you don’t.

KEY BENEFITS

Is your business facing post-pandemic challenges and labour crises?
Looking for more efficient security solutions?

HERE’S HOW OUR HYBRID SECURITY SOLUTIONS CAN HELP:

- > RAPID RESPONSE

Through the combined power of remote monitoring technology and manned guarding expertise, we ensure no time is lost between alert and action. This provides faster crisis resolution with less overall impact to your business - and your bottom line.
- > EYES EVERYWHERE

Always-on surveillance through 24/7 technology and AI augments the capability of manned guards, providing amplified coverage across your facility.
- > PROACTIVE MEASURES

From sensory alarms to early threat detection, Hybrid Security provides a proactive and preventive model that deters criminals while minimizing false alarms.
- > TAILORED SOLUTIONS

As a flexible, mix-and- match service, Hybrid Security provides optimized efficiency, strategically designed to protect your assets where you need it most and specifically tailored to the unique needs of each business.

“

A powerhouse solution designed for today’s unique security challenges.

”

HYBRID SECURITY: HOW IT WORKS

DID YOU KNOW?

AI-powered video analytics can detect:

- ✓ Suspicious behavior
- ✓ Unexpected work hazards
- ✓ Facility damages
- ✓ Loitering
- ✓ When someone or something is out of place
- ✓ Fire
- ✓ Illegal encampments

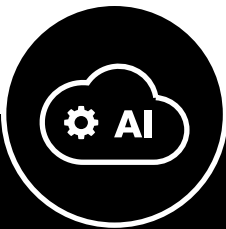

ON-SITE SECURITY OFFICERS & PATROLS

- Have a unique understanding of local realities and potential threats.
- Apply exclusive on-the-ground knowledge to deliver tailored solutions.
- Act with tact and integrity by applying expertise, skill, and strong judgment.

GARDAWORLD SECURITY SYSTEMS' MONITORING CENTRE:

- Highly trained video ULC-certified monitoring security personnel support your on-site guards 24/7.
- Informed by powerful video analytics and precision cameras via Mobile Surveillance Units (MSUs).
- Provides custom reports on demand and investigations support for faster crisis resolution.

EMPOWERED BY TECHNOLOGY

Supplementing the guards' direct line of sight for enhanced visual coverage using:

- > Mobile Surveillance Units (MSUs)
- > Biometric data
- > High-resolution photos and HD videos
- > Smart video analytics
- > Cameras with wide dynamic range (WDR)
- > Thermal imaging

THE COMMAND CENTRE RECEIVES AN INTRUSION ALERT

HUMAN VERIFICATION

Trained guards authenticate threats to reduce false alarms and response times.

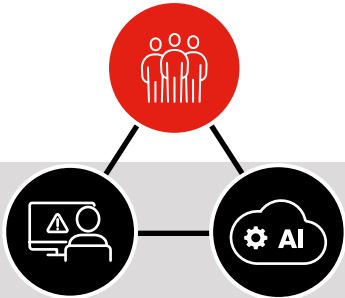

AN ALARM IS TRIGGERED

Instantly minimizes potential damages and costs.

TWO-WAY AUDIO

Delivers on-site deterrence to potential threats.

A UNIFIED SOLUTION

When a threat is confirmed by GardaWorld Security Systems & Technology:

GardaWorld's on-site guards intervene.

First responders are notified, if necessary.

Upper management is immediately notified.

Recordings of the incident are made available for law enforcement.

EFFICIENT CRISIS RESOLUTION

IS HYBRID SECURITY RIGHT FOR MY BUSINESS?

Hybrid Security is especially well suited for businesses that require full coverage across large, vast spaces and multiple entry points.

From automating entry into restricted areas, to protecting parking lots from vandalism and theft, to mitigating vehicle break-ins and assaults on company property, Hybrid Security is the solution for many of today’s growing industry sectors:

- ✓ CONSTRUCTION SITES
- ✓ MANUFACTURING
- ✓ EDUCATION
- ✓ OIL, GAS AND MINING
- ✓ DISTRIBUTION & LOGISTICS
- ✓ TRANSPORTATION
- ✓ COMMERCIAL REAL ESTATE
- ✓ RESIDENTIAL AND CONDOMINIUM
- ✓ UTILITIES AND INFRASTRUCTURE
- ✓ GOVERNMENT
- ✓ RETAIL
- ✓ FINANCE
- ✓ FOOD AND AGRICULTURE
- ✓ PHARMA/BIOTECH

“A next-level security solution that delivers uncompromising protection and unprecedented value by empowering manned guards—the heart of your security infrastructure.”
