

# SECURING YOUR JOURNEY, **EVERY DAY.**

With dedicated traveller assistance from point of arrival through the airport; to secure, tracked and escorted transport to the destination, the GardaWorld Journey Management solution across Africa delivers peace of mind and safety to the highest standards for the business traveller, in a market where the security environment and road conditions represent a significant risk.

Conducting journey management throughout Africa for over 25 years, GardaWorld understands the demanding and frequently changing security requirements encountered in Democratic Republic of Congo. Journey Management services include (amongst others): – Airport Protocol Services, Meet and Greet, Countrywide site visits, Vehicle and Individual Tracking.

**Fundamental to the planning and conduct of all GardaWorld journey management services are:**

Real-time intelligence and threat assessments.

Tested, rehearsed and relevant Standard Operation Procedures.

Adherence to international best practice and accreditations.

Dedicated, experienced, well-trained drivers, commanders and security personnel.

Full range of vehicle types – SUV, saloon, buses, armoured vehicles.

Radio communications, vehicle tracking with panic button feature, are supplied as standard in all GardaWorld vehicles.

Emergency medical and other equipment are supplied as standard in all GardaWorld vehicles.

Our **Journey management** service in Africa is an extensively tested, well-practised, and effective means for organisations to reduce transportation risks to the business traveller.

## Future Focused, Locally-driven success

**24/7 Command and Control Centres** in 10 core operating countries

**Low-profile** approach by using vehicles and a profile fitting into the local environment and not drawing attention

Security based upon predictive threat and **well-rehearsed contingency planning** and SOPs

**Sustainable business platform** supporting local community investment through our locals first recruitment policy, developing trained expert local national drivers.

**Kidnap and response**

**Full remote oversight of the vehicle(s) through a sophisticated tracking system**

**Accredited training** related to driving (RoSPA accredited), tracking, trauma and first aid, and threat response protocols

**Security surveys and advance reconnaissance** of locations ensuring that anti-surveillance concepts and drills are incorporated

**Panic button** with immediate set-off on break-down, accident or any other incident deploying a **Quick Reaction Force** vehicle to the scene
